MSSA will obtain the specifics for the restricted/limited adult from the Center for SafeSport, and the participation of the adult will be permitted only within the specified restrictions/limits.

### **Minor Athlete Abuse Prevention Policy (MAAPP)**

The U.S. Center for SafeSport recognizes that youth-adult relationships can be healthy and valuable for development. Policies on one-on-one interactions protect children while allowing for these beneficial relationships. As child sexual abuse is often perpetrated in isolated, one-on-one situations, it is critical to limit such interactions between youth and adults and implement programs that reduce the risk of sexual abuse.

Per the MAAPP policy to limit one on one interactions between minor athletes and adult participants who are not their legal guardian, the following policy for minor athletes applies for teams that register one or more players who are under 18 years of age.

In accordance with the SafeSport Act, persons 18 or older (“adults”) with close and continuing contact with individuals under the age of 18 (youth) must take the following actions:

- One-on-one interactions between an adult and a youth player on the team must be limited in accordance with the SafeSport Code

<https://uscenterforsafesport.org/response-and-resolution/safesport-code/>

- The coach/manager/staff on the team must maintain current annual certificate of SafeSport Training. Any adult player with close and continuing contact (i.e. provides transportation) or authority over a youth player must also maintain current annual certificate of SafeSport Training.
- If the team meets more than twice a week or has use of a locker room/changing facility on a regular basis, then each adult player must also maintain current annual training.
- Background screening for the individuals above must be done once every three years.

Adult players who do not have close and continuing contact with individuals under the age of 18 are to be directed and become familiar with the One on One policy and the Prohibited Conduct Policy found on the MSSA web site.

### **SafeSport Policy Requirements for MSSA Affiliated Leagues**

MSSA Affiliated Leagues must formally adopt a SafeSport Policy. MSSA shall assist Leagues with policy templates for this purpose. Member Leagues are required to submit a list of the names of their officers/commissioners/organizers and employees each calendar year. These individuals must complete the SafeSport Core Training requirements as specified in this policy. Copies of the League SafeSport, Prohibited Conduct and One on One policies must be posted on the league web site. It should also include the methods for reporting violations.

A member league may establish policy that prohibits the registration of players under the age of 18.
